

Brendan Mayer

Brendan Mayer BIOGRAPHY

Brendan Mayer is quickly gaining attention as an artist and songwriter, with his signature voice and intelligent songs. The son of acclaimed guitarist and songwriter, Peter Mayer, Brendan has crafted his artistry from a young age. A long-time resident of Nashville, TN, Brendan was the lead singer of buzz-band, The Turf, sharing the stage with successful acts such as American Bang and Jeff the Brotherhood. He has also been featured as a member of Jimmy Buffett's Coral Reefer band, including as guitarist/vocalist during a four-show run at the famous La Cigale in Paris. In 2014, Brendan released his debut album, the Getaway Car EP, on Mailboat Records.

Recently, he and his father have collaborated to release their first album together under the Peter Mayer/Brendan Mayer name — "Long Story Short" — which has received extensive airplay on Sirius/XM Radio. In addition, Brendan has released a new single of his own — "The American" — to be followed by a continuous rollout of new music in 2021. He is also a member of the band Floating Collective.

With an introspective lyricism and engaging melodic sensibility that marries Americana, Folk, and Indie Pop, Brendan creates music that feels like a worthy modern continuation of the classic songwriting tradition. He tours regularly throughout the United States and Europe, and has steadily built a loyal following.
